DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 9 and 12 are allowed.
2. The following is an examiner's statement of reasons for allowance: There was no reference in the prior art search that disclosed, taught, or suggested at least one of said movable second pipe joint is electrically grounded when disengaged from said first pipe joint and electrically ungrounded when engaged with said first pipe joint, as claimed. As argued by the Applicant, the Tholome reference discloses *always* grounding the source of coating material, and does not allow for the source of coating material to be ungrounded. Diana (U.S. Patent No. 5288525) discloses selectively grounding and ungrounding conductive fluids, however the reservoir is not separated from the spray device, as claimed. Therefore the claims are considered to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
